EDUCATION

Bachelor of Technology (B.Tech) - Information Technology , Chennai Institute of Technology

Nov 2022 – Apr 2026

Cumulative Grade Point Average (CGPA) – 9.1/10

PROFESSIONAL EXPERIENCE

KOKA TECHNOLOGY Software Developer – Intern (Onsite)

- Developed and deployed a MERN stack web application, streamlining workflows for over 100 users *Dec 2023 – Jan 2024*
- Enhanced product performance with React.js, PHP, and APIs, increasing user engagement by 15%. *Mogappair, Chennai*

MAPOS IT SERVICES PRIVATED LIMITED – Intern

- Collaborated with team of developers to create a web application, project supports over **1000 users**. *May – June 2024*
- Utilized Git and Spot to develop a web application, managing **10+ commits** to store snapshots of project. *Chennai*

PROJECTS

AI Assistant for E-commerce (Backend): *FastAPI, LangChain, LLMs, Chromadb*

- Built an **AI-powered assistant for e-commerce** using FastAPI to provide intelligent, data-driven support for store.
- Implemented **LLM-based workflows** with Langgraph and generate actionable insights from product, order etc.

AI note taker : *Nextjs, Convex, Langchain, Tailwind CSS, shadcn*

- Built a Alpowered PDF Note Maker enables automatic note generation with 95% accuracy, handling 5+ documents.
- enabled automatic note generation by NLP-based text summarization and formatting, also enhancing the productivity.

E-commerce Backend System: *FastAPI, PostgreSQL, MongoDB, OAuth2*

- Built a high-performance e-commerce backend using **FastAPI** with a **polyglot persistence model**.
- Implemented **OAuth2 Bearer token authentication** with role-based authorization to manage admin and user access

SKILLS

- | | | | | | | |
|--------------|--------------|----------|-------------|----------------|----------------|------------------|
| • Java | • React js | • Vite | • Figma | • Mongoddb | • Docker | • Data-Structure |
| • Python | • Next js | • Mysql | • Tailwind | • Angular | • Vercel | • Cloud |
| • JavaScript | • Node js | • Psql | • Langchain | • Algorithm | • CP | • OS |
| • HTML | • Express js | • Convex | • shadcn | • UI-UX design | • Github | • CN |
| • CSS | • FastAPI | • Git | • VS code | • Postman API | • Clever cloud | |

CERTIFICATIONS

- Microsoft Azure fundamentals **AZ-900**
- NPTEL certificate in Introduction to IIm
- NPTEL certificate in Blockchain and its Applications
- Certificate for Building language models on **AWS**

COMPETITIVE PROGRAMMING

- LeetCode (KAVIYANS):** Solved 1000+ problems with a 200-day streak, achieving a competitive rating of 1790.
- CodeChef (kaviyan77):** Maintains a rating of 1640 in Division 2 with a global ranking of 16505 , 160 problems solved.
- Codeforces (KAVIYANS):** Achieved a contest rating of 1008 , with highest contest ranking of 6809.

COMPETITION

RECURSION HACKATHON - Pondicherry University (Winners)

- Achievement: Secured 1st place in competitive event involving 50+ teams, implemented advanced AI/ML concepts.
- Project: Developed an AI-powered system to detect people and theft in CCTV footage, achieving 95% accuracy

I LOVE HACKATHON– VIT University (Finalist)

- Developed a hackathon website using **Vite.js, FastAPI, SQLite**, and **Ganache**, supporting **10+ users**.
- Implemented QR code generation for **patient prescriptions**, enabling **pharmacists to scan and process prescriptions**.

SMART HACKS 2k24 Beta Edition - Anurag University (Finalist):

- Secured a position in the top 7 teams with an innovative AI/ML-based agricultural project which helps farmers.
- Developed a Streamlit website to detect seed growth, predict weather, estimated crop yield with over 90% accuracy.

VOLUNTEERING

- GREEN CAMPUS Initiative:** Volunteered to promote greenery and plant trees at college by planting plants.
- TROJANS SYMPOSIUM Registration:** Assisted participants with the registration process and guidance for the event.
